WELCOME TO THE E-NEWSLETTER OF HAMSA REHAB!

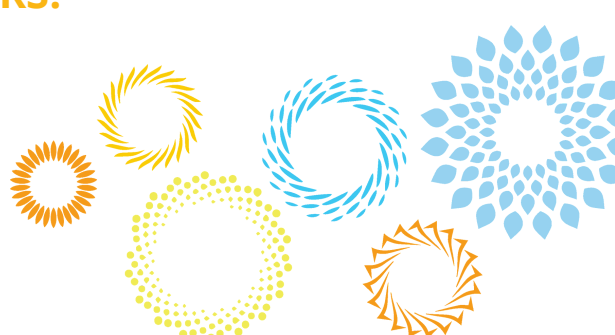

It took more than 15 years of observation, training and planning to build HAMSAs Rehab, which is the first dedicated centre for spine and brain rehabilitation in the heart of the city at Royapettah, Chennai, the city which has a population of about 10 million and is the health capital of India.

HAMSAs has experienced significant growth from 2019 to 2023, expanding to multiple branches in Chennai, Trichy, and Vellore. Currently, with 5 branches and over 75 beds, HAMSAs provides inpatient, outpatient, and day care services.

This growth has been possible due to teamwork, dedication, meticulous execution of plans, and a clear vision. The backbone of HAMSAs has always been its therapists and nurses, and we are grateful to all past and present staff members who have contributed to our growth.
